The PEAK® Performance Optix® Flat Wiper Blades are a premium flat blade designed to hug the curve of your windshield to provide a clean wipe in any weather. Optix® Wiper Blades are also designed with frameless technology preventing the buildup of snow and ice on the wiper blades. Unlike traditional frame wiper blades the Flat Blade delivers continuous pressure along the entire blade. Product features include: • Flat/beam Blade technology • Frameless technology prevents ice and snow buildup • Quick and Easy Installation • Advanced rubber formulation for a smooth, cleaner wipe
